

Notification Of Planned Unavailability

Asset	Revision	Date Published	Event Date	Expected Duration	Loss of Volume (Mcm/D)	Comments
Bacton SEAL	9	19/09/2017 14:29	30/07/2017 18:00	53 days	11	Offshore production has restarted and ramp-up is in progress. A 2 day ramp up to normal rates within 48 hours.
Bacton SEAL	8	18/09/2017 15:27	30/07/2017 18:00	52 days	11	Start-up is in progress. A 2 day ramp up to normal rates is expected to commence from the 19th September 2017
Bacton SEAL	7	17/09/2017 17:29	30/07/2017 18:00	51 days	11	Due to delay estimated restart is now 18th September 2017.
Bacton SEAL	6	14/09/2017 15:15	30/07/2017 18:00	50 days	11	Due to delay estimated restart is now 17th September 2017.
Bacton SEAL	5	13/09/2017 15:50	30/07/2017 18:00	48 days	11	Due to delay estimated restart is now 15th September 2017.
Bacton SEAL	4	08/09/2017 16:38	30/07/2017 18:00	47 days	11	Due to delay estimated restart is now 14th September 2017.
Bacton SEAL	3	25/08/2017 12:04	30/07/2017 18:00	45 days	11	Due to delay estimated restart is now 12th September 2017.
Bacton SEAL	2	18/08/2017 16:08	30/07/2017 18:00	39 days	11	Due to delay estimated restart is now 6th September 2017.
Bacton SEAL	1	30/07/2017 08:54	30/07/2017 18:00	27 days	11	Offshore production has stopped earlier than forecast. A 2 day ramp up to normal rates is forecast to commence on the 25th August 2017
Bacton SEAL	0	30/06/2017 15:12	31/07/2017 06:00	27 days	11.5	Ramp down of flows commencing 30th July 2017 2 day ramp up to normal rates will commence on the 26th August 2017
St Fergus	2	25/06/2017 08:47	27/06/2017 18:00	~ 48 hours	3	ramp up ongoing, normal rates not expected for another 48 hours.
St Fergus	1	24/06/2017 08:52	24/06/2017		~6	Offshore ramp is expected from midday, ramp up to normal rates not expected until Monday the 26th.
St Fergus	0	28/04/2017 12:21	17/06/2017 05:00	7 days	9	
St Fergus	0	16/04/2017 16:35	19/04/2017 05:00	24 hours	8.5	Rates will increase during gas day 20-Apr-2017 and rates will be normal again for gas day 21-Apr-2017
Bacton SEAL	1	08/04/2017 23:55	08/04/2017 06:00		9.5	Due to a minor issue with the tide/weather situation, offshore flows ramp up is delayed to gas day 09/04/17.
Bacton SEAL	0	07/04/2017 15:45	08/04/2017 06:00		6	Offshore flows are currently reducing but Impact on gas day 07/04/17 is minimal. Offshore flows are forecasted to recommence during gas day 08/04/17.
Bacton SEAL	3	03/04/2017 18:00	02/04/2017 03:00		6	Gas export has commenced from Elgin Franklin with slow ramp up as per procedures.
Bacton SEAL	2	02/04/2017 22:07	02/04/2017 03:00		11	Ramp up delayed, duration unknown
Bacton SEAL	1	02/04/2017 18:20	02/04/2017 03:00	20 hours	8.5	Ramp up delayed to 23:00 pm this evening.
Bacton SEAL	0	02/04/2017 10:19	02/04/2017 03:00	14 hours	6	Flows currently at 0 mcm/day. Ramp up expected around 5 pm this afternoon.
Bacton SEAL	3	29/03/2017 07:40	26/03/2017			production restarted overnight. Flows at Bacton SEAL forecast to increase from 29-Mar-17 08:00, ramp up to previous rates over the next 2 days
Bacton SEAL	2	28/03/2017 08:43	26/03/2017	unknown	12	Third party works complete. Start up tests ongoing, unknown at present when gas export will restart.
Bacton SEAL	1	25/03/2017 18:02	26/03/2017	36-48 hours	12	Offshore production ramp down on gas day 26th March. Offshore production is planned to stop for 36-48 hours A 2 day ramp up to previous rates is expected once the works are complete Planned offshore reduction at Elgin Franklin (Bacton SEAL). The flow reduction is due to works being carried out by a third party on the oil export route. The duration and timing are subject to change.
Bacton SEAL	0	19/03/2017 09:06	26/03/2017	36 hours	12.6	Offshore production ramp down on gas day 25th March. Offshore production is planned to stop for 36 hours starting 26th March. A 2 day ramp up to previous rates is expected once the works are complete
St Fergus	2	08/02/2017 06:59	08/02/2017		4	Issue starting compressor delaying ramp up. Forecast to start compressor this morning with a ramp up to normal rates for gas day 09-Feb-2017
St Fergus	1	07/02/2017 07:24	07/02/2017		6	Issue starting compressor delaying ramp up. Forecast to start compressor this morning with a ramp up to normal rates for gas day 08-Feb-2017
St Fergus	0	03/02/2017 11:43	06/02/2017 05:00	12-18 hours	11	11 mcm/day Flow loss estimated for 12-18 hours. Normal rates expected for gas day 07/02/17.

Notification Of Unplanned Unavailability

Asset	Revision	Date Published	Event Date	Expected Duration	Loss of Volume (Mcm/D)	Comments
Bacton SEAL	6	28/12/2017 07:28	28/12/17	7 hours	3	Following a turbo expander trip, offshore flows were reduced, flows now increasing and forecast to be back to previous levels before the start of the next gas day.
Bacton SEAL	5	28/12/2017 05:49	28/12/2017		1.5	Offshore production is back to normal levels (technical capacity). Elgin Franklin delivery to Bacton SEAL will slowly increase over the course of the day to normal levels
Bacton SEAL	4	27/12/2017 12:43	27/12/2017		4	Elgin Franklin delivery to the Bacton SEAL terminal is forecast to start from 1300hrs on Gas Day 27-Dec-2017 at a rate of 3 MCM/D, it will slowly increase over the afternoon to be around 7 MCM/D at 1700 hrs.
Bacton SEAL	3	27/12/2017 05:48	27/12/2017			Offshore Elgin Franklin production has resumed. Ramp up of gas flows will be linked to ramp up of oil rates.
Bacton SEAL	2	13/12/2017 07:28	12/12/2017	~3 weeks	10	Update: End Date revised, The duration of the shutdown is not known at present.
Bacton SEAL	1	11/12/2017 17:29	12/12/2017	n/a	10	Elgin Franklin gas export has had to stop due to the shutdown of the oil export pipeline. The duration of the shutdown is not known at present. Elgin Franklin flows at Bacton SEAL will stop from 2100 today.
Bacton SEAL	0	11/12/2017 06:32	11/12/2017		6	Due to a restriction on the oil export route for Elgin Franklin, gas export from the field has been reduced by approx 60% from normal levels. The duration is unknown at the moment.
Bacton SEAL	0	07/12/2017 09:56	07/12/2017		4	Due to a restriction on the oil export route for Elgin Franklin, gas export from the field has been reduced by 60% from normal levels. The duration is unknown at the moment. The impact is uncertain at the moment also.
Bacton SEAL	4	26/11/2017 20:41			4.9	Normal rates expected during gas day 27-Nov-2017. Elgin Franklin flow rate at Bacton SEAL forecast to be 5.5 MCM/Day at 2100 and will slowly increase to end of this gas day.
Bacton SEAL	3	26/11/2017 09:41	26/11/2017		6.4	Elgin Franklin restart is ongoing. Current forecast is that flows will increase at Bacton SEAL from 1500 on gas day 26th November. There will be a slow ramp up from 1500.

Bacton SEAL	2	26/11/2017 01:37	26/11/2017		10.4	An update will be sent once this occurs. This message only relates to Elgin Franklin, not all flow at Bacton SEAL.
Bacton SEAL	1	25/11/2017 23:05			3	Update: The flows at Bacton SEAL will continue to reduce during the night as the gas landed for Elgin Franklin at Bacton SEAL is only coming from pipeline stock. This message only relates to Elgin Franklin, not all flow at Bacton SEAL. As an end of day value the loss at Bacton SEAL is approximately 3.5 MCM. The original flowrate for today was 10.4 MCM, currently it's around 7 MCM/Day and by 0500 it's forecast to be only 1 MCM/D. A new message for gas day 26-Nov-2017 will be posted later.
Bacton SEAL	0	25/11/2017 18:22	25/11/2017		3	Investigation ongoing. Initial estimate will be offshore production restarting 0600 26/11/17. There will be a ramp up period for offshore and then an increase in flows at the Bacton SEAL terminal. A further message will be posted when more is known
Bacton SEAL	4	26/10/2017 05:10	26/10/2017	3-4 days	3.2	Offshore flows are forecast to remain at 7.5 MCM/D into the weekend when they will increase to technical capacity
Bacton SEAL	3	25/10/2017 19:50	25/10/2017		7.7	Flows at Bacton SEAL to slowly increase from 2000 (Gas day 25-Oct-2017)
Bacton SEAL	2	25/10/2017 05:14	25/10/2017		10.7	The plant is being prepared for restart. Offshore gas export is not expected until late afternoon, with a slow increase in flows at Bacton SEAL from this evening. Forecast below assumes worst case of no restart today, an update will be sent when platform restarts
Bacton SEAL	1	24/10/2017 05:12	24/10/2017		10.7	Restart time unknown
Bacton SEAL	0	23/10/2017 19:33	23/10/2017		5	Offshore production has stopped, cause currently being investigated.
St Fergus	3	07/09/2017 11:27	06/09/2017		4.6	Ramp up will continue over gas day 07-Sep-2017. Normal rates expected for gas day 08-Sep-2017
St Fergus	2	07/09/17 05:07	06/09/2017		6.7	Offshore flows have restarted. Ramp up will continue over gas day 07-Sep-2017. Normal rates expected for gas day 08-Sep-2017
St Fergus	1	06/09/2017 14:44	06/09/2017 12:00		7.4	Impact on within day increased.
St Fergus	0	06/09/2017 11:52	06/09/2017 12:00		5.7	Currently in process of restarting offshore flows. Normal rates expected for gas day 07-Sep-2017
St Fergus	3	16/07/2017 20:20	15/07/2017 11:00		0	Production now back at full rates.
St Fergus	2	16/07/2017 06:54	15/07/2017 11:00	unknown	9	Restart commenced gas-day 16th July, ramp up to full rates over the next 12 hours.
St Fergus	1	15/07/2017 21:35	15/07/2017 11:00	unknown	9	Restart is not currently forecast until end of gas-day 15th July/start of gas-day 16th July.
St Fergus	0	15/07/2017 12:12	15/07/2017 11:00	unknown	9	Duration currently unknown.
Bacton SEAL	2	16/06/2017 15:21	14/06/2017 08:00		2	Maintenance works completed earlier than planned. Offshore rates ramping up to previous levels over the next four hours
Bacton SEAL	1	15/06/2017 07:59	14/06/2017 08:00	~ 7 days	4.5	estimated at 7 days
Bacton SEAL	0	14/06/2017 08:23	14/06/2017 08:00	~2 days	5	Duration unknown at present estimated at 2 days
Bacton SEAL	4	08/03/2017 12:28	06/03/2017 14:55		2	Ramp up ongoing. Normal Flow rates expected before the end of gas day 08/03/17.
Bacton SEAL	3	07/03/2017 17:44	06/03/2017 14:55		5	Ramp up delayed until midday tomorrow (gas day 08/03/17).
Bacton SEAL	2	07/03/2017 09:23	06/03/2017 14:55		4	Flows ramping up. Normal rates expected for gas day 08/03/17.
Bacton SEAL	1	06/03/2017 16:36	06/03/2017 14:55		5	Unplanned Offshore flow reduction at Bacton SEAL terminal (Elgin Franklin). Flow loss of 9 mcm/day over the next 12 hours. Duration unknown.
St Fergus	3	07/03/17 17:26	07/01/2017 01:00		4	Ramp up ongoing. Normal rates expected for gas day 08/03/17.
St Fergus	2	07/03/2017 06:57	07/01/2017 01:00		5	Unplanned Offshore Flow Reduction at NSMP St Fergus Terminal (Greater Laggan Tormore). Duration unknown.
St Fergus	1	06/03/2017 15:51	06/03/2017 01:00		4	Ramp up ongoing. Flows are increasing and normal rates are expected from gas day 07/03/17.
St Fergus	0	06/03/2017 07:15	06/03/2017 01:00		5	Unplanned Offshore flow reduction at NSMP St Fergus Terminal (Greater Laggan Tormore). Duration Unknown
St Fergus	1	19/02/2017 09:51	14/02/2017 16:00		0	Flows ramped up as planned.
St Fergus	0	15/02/2017 07:45	14/02/2017 16:00		6	Flow reduction of 6 mcm/day. Ramp up ongoing, flows should be back to normal before the end of gas day.
St Fergus	2	12/02/2017 11:56	11/02/2017 15:00		7	Ramp up to full production ongoing
St Fergus	1	12/02/2017 06:56	11/02/2017 15:00		11	Flow reduction of 11.0 MCM/D over the remainder of the gas day, duration unknown
St Fergus	0	11/02/2017 17:48	11/02/2017 15:00		4.5	Duration unknown
Bacton SEAL	2	04/02/2017 10:46	30/01/2017 08:00		0	Flows at Bacton SEAL back to normal.
Bacton SEAL	1	03/02/2017 15:51	30/01/2017 08:00		3	Offshore production ramping up. Flows at Bacton SEAL to slowly increase over the course of this gas day.
Bacton SEAL	0	30/01/2017 06:51	30/01/2017 08:00		5	Offshore production has tripped. On restart production will be limited to 5 MCM for unknown period
Bacton SEAL	2	19/01/2017 11:44	13/01/2017 18:30		4.5	Ramp up on hold, duration unknown. Update will be sent once production increases.
Bacton SEAL	1	17/01/17 09:36	13/01/2017 18:30		6	Ramp up on hold. Export rate is around 6 mscm/d and will remain at this value for at least 2 days..
Bacton SEAL	0	16/01/2017 10:46	13/01/2017 18:30		6
